Welcome back to our blog!

We used this week to get back on track and to kick off a successful 2nd semester of Software Engineering.

First of all we reviewed the feedback for our midterm handin and worked on improving our documentation and our YouTrack Setup.

In addition, we redefined our project scope. Doing so, we prioritized our remaining use cases according to their value and feasibility. The updated UCD is shown below.

In order not to waste any time we determined our next steps.

This week we will focus on improving our YouTrack setup and simultaneously start working on the next two use cases “Get Notifications/Alerts” and “Add Gift Ideas to Events”.

Feel free to leave a comment! If you have any questions or suggestions, let us know!

Best regards

Plandora-Team
